

Environmental Statement

Kardean International is the leading supplier of Luxury Vinyl Tiles (LVT) worldwide. We are committed to the continual improvement of our manufacturing and logistical processes to ensure sustainability and best value for our customers and stakeholders alike. Kardean International prides itself on environmental awareness in the supply and maintenance of all its products worldwide. We are fully aware of our duty to act responsibly and continue to monitor and improve our products and processes to further reduce our impact on the environment.

These measures include the following:

Sustainability

- All our flooring products use recycled PVC, some of our products contain over 50% recycled content
- The manufacturing process for the polymer in our LVT has a much lower energy requirement than that of other plastics
- All our manufacturing waste is recycled in a closed loop process at source
- All our flooring is suitable for recycling
- LVT has a generic Building Research Establishment (BRE) Green Guide rating of A
- All our packaging is made using recycled material, which we continually review to ensure that it is environmentally friendly and fit for purpose
- We use individual logistical solutions to efficiently and effectively transport our products
- Our storage facilities use high density racking to maximise capacity and minimise impact
- Our offices are introducing innovative energy saving techniques, including motion sensitive lighting, low energy bulbs and waterless urinals
- We are members of the United States Green Building Council (USGBC) and the Green Building Council of Australia (GBCA)
- All of our products qualify for Leadership in Energy and Environmental Design (LEED) points in the US

Manufacturing

- All of our products and accessories are manufactured in factories certified to the ISO 14001 environmental standard and ISO 9001 quality standard

Low emitting products

- Some of our products carry a low Volatile Organic Compounds (VOC) test certificate from the US Greenguard Environmental Institute and meets the 'for use with Children and Schools' standard, specifically LEED Credit 4.3 and CAL 1350
- All of our adhesives are water based, solvent-free and have low VOC emissions

Cleaning and maintenance

- Kardean's K Guard Plus protection is applied to our flooring to protect and make it easier to clean
- Products in Kardean's floor care range are 100% biodegradable and non-hazardous

The future

- We are working towards BRE Global accreditation which we expect to attain in the near future
- Our continued product innovation focuses on reducing their environmental impact
- We will continually review our Environmental Statement and comply with environmental legislation
- We intend to maintain the ISO 14001 and ISO 9001 accreditation

Our aim is to remain the leading supplier of LVT worldwide and to have a market leading environmental record of achievement through the development of sustainable products and processes.

Mark Sefton
Chief Executive Officer
